

Your community needs you!

There are health inequalities across different groups & communities in Coventry and Warwickshire – we want to help narrow these by making sure that research happening in our region is more representative of the people living there. Take part in research and help us!

Benefits of taking part in healthcare research:

- Have your say in what research is prioritised
- Help us find new and better treatments
- Make sure everyone is included, especially those who have traditionally been left out of research
- Learn more about health and how to stay healthy
- Get access to new treatments before others
- Make a difference and help improve healthcare for the future

To find out more, visit our “Be Part of Research” page via the QR code or bit.ly/3ZXWIST
